

Front-end Angular Developer with 3 years of experience specializing in modern Angular (v16–v22+), focused on building high-performance enterprise applications using Standalone Architecture, Signals, SignalStore, and Reactive patterns. Proficient in AI-assisted development workflows, leveraging modern IDEs (Kiro, Cursor, Antigravity) alongside custom AI rules and context steering to engineer clean, maintainable front-end systems.

KEY SKILLS & TECH STACK

Core Stack	Angular (v16–v22+), TypeScript (Strict), JavaScript (ES6+), HTML5, CSS3, SASS
State Management	Angular Signals, NgRx SignalStore, RxJS
Architecture	Standalone Architecture, Micro-frontends, Dependency Injection, Repository Pattern
AI Engineering & Tooling	AI IDEs (Kiro IDE, Cursor, Antigravity), AI Rules & Context Steering (.kiro / .cursorsrules), System Prompting
UI & Styling	TailwindCSS, Angular Material (MD3), DaisyUI, Responsive & RTL Layouts
Backend, Cloud & Versioning	Firebase (Auth, Firestore), Cloud Functions, RESTful APIs, Git, GitHub, GitLab

WORK EXPERIENCE

Front-End Developer | eSpace

01/2026 – Present

Angular v22+ | TypeScript | RxJS | Kiro IDE | GitLab | Corporate Banking

- Engineered enterprise corporate banking platforms for major Tier-1 financial institutions in the GCC region, collaborating on core multi-tenant system integrations.
- Leveraged Kiro IDE alongside custom AI rules and steering documents to accelerate codebase refactoring, code quality audits, and test case coverage.
- Executed architectural refactoring, migrating legacy modules into modern Angular standalone structures driven by Signals and modern routing APIs.
- Consolidated public section views and managed enterprise GitLab merge requests adhering to strict code review standards.

Full Stack Developer | Switch Point

08/2025 – Present

Angular v21–v22+ | Firebase | TailwindCSS | Antigravity IDE | NgRx SignalStore | Zod

- Tashil (Enterprise Multi-Tenant SaaS Platform)**
 - Architected a multi-tenant SaaS platform featuring isolated administrative dashboards and granular Role-Based Access Control (RBAC).
 - Engineered a dynamic internationalization (i18n) system supporting real-time English/Arabic switching with full bi-directional (RTL/LTR) layout adaptation.
 - Leveraged OnPush change detection and Signals to eliminate redundant rendering cycles and minimize load times.
- Drop-Delivery & Logistics Platform**
 - Built a high-performance logistics management engine using Angular 22+, Firebase Firestore, and Cloud Functions.
 - Implemented runtime type validation using Zod alongside httpResource and reactivity via computed signals.
 - Integrated real-time fleet management tracking and serverless triggers for automated role assignment and ID generation.
- Removals & Transport System**
 - Designed interactive booking and transport coordination workflows with real-time route updates and service management.

Front-End Developer | Arjan Park

01/2025 – 04/2025

JavaScript | Bootstrap | HTML5 / CSS3

- Developed responsive hotel booking interfaces with high visual engagement and interactive layout animations.

Front-End Developer | Retail Point of Sale (POS)

10/2024 – 12/2024

ASP.NET | Angular 16 | Angular Material

- Built cashier session interfaces, sales transaction processing, and large-dataset reporting views using Angular Material.

Front-End Developer | Hatha AI-Islam

06/2024 – 10/2024

Angular 16 | Material Design | Bootstrap

- Delivered an accessible (WCAG compliant) content portal using Angular Meta services, lazy-loaded feature modules, and performance-tuned list rendering.

KEY PROJECTS

Earth Harvest | Front-End E-Commerce

05/2025 – 07/2025

Angular v20+ | Firebase | TailwindCSS | DaisyUI

- Built a modern e-commerce platform using Signal input() / output() APIs, computed() derived state, and ngOptimizedImage performance tools.

EDUCATION & CERTIFICATIONS

High School Degree — Alexandria Azharian Zone (2014)
Professional Certifications & Coursework: Modern Angular
Architecture (v17–22+, Signals, SignalStore), RxJS Deep Dive, Angular
Material MD3, Modern JavaScript & TypeScript, TailwindCSS, CSS &
SASS.
